Mr. Frank Rosenberg
332 South 4th
Pekin, Illinois 61554

Gentlemen:

An investigation of your closed and covered landfill located south of Pekin off Illinois Route 29 was made on June 23, 1981, by Gerald E. Steele and myself, representing this Agency.

The investigation revealed that erosion has cut several gullies into the final cover, some of these to a depth that exposed previously covered refuse. These erosion gullies must be filled to restore proper final cover depth. Additionally, water was observed ponded in three locations along the western edge of the property. As this water could eventually percolate down and add to leachate generation, it is suggested that these areas be filled, graded or ditched in such a manner as to prevent water from standing in them for any amount of time. It was also observed that unauthorized access is available to the site. If possible, this should be corrected. The area should also be posted "No Trespassing".

Within ten (10) days we request a written reply to this letter indicating how you will be correcting the aforementioned violations.

Sincerely,

A handwritten signature in cursive script that reads "Monte M. Nienkerk".
